

We will be learning about some of the smaller beasts that live in our world.

What is a Minibeast?

We will be investigating the creepy crawly world. Exploring where they live, what they look like, what they eat and how they move.

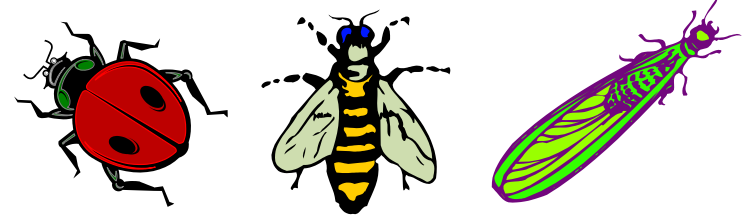

Life cycles

We will be finding out about the different stages of life that many insects go through before becoming the adults we recognise.

Spots, stripes and camouflage

We will be discovering which minibeasts try to warn others that they are not good to eat and which try to hide so that they are not eaten!

Minibeast Safari

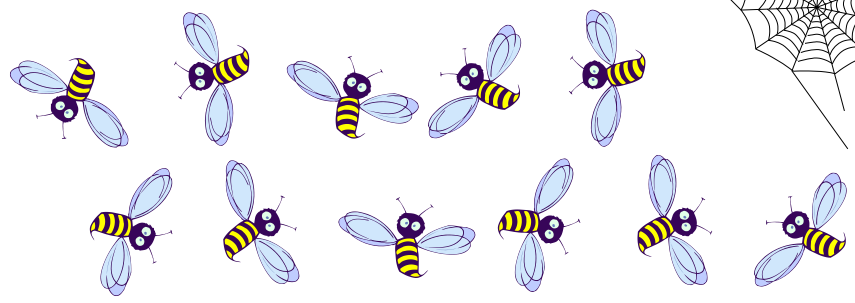

We will be going on a bug hunt to find out where minibeasts live and we will look at them closely with magnifying glasses.

We will also be learning about:

- numbers, addition and subtraction
 - shapes, measuring and problem solving
 - letter sounds, spelling words and decoding words
 - continue to write letters correctly
 - continue to write sentences and captions and many more things
- As well as:
- sharing the Easter holiday book with our teachers
 - learning about keeping healthy

Marching

Minibeasts!
